After considerable discussion a motion was made and unanimously carried: "That the permit granted to Standard Oil Co. to erect oil tanks and other buildings on block 4, Lassator addition to town of Safford be hereby revoked, and that the clerk be instructed to notify the Standard Oil Co. to that effect."

It was agreed that a hearing should be extended the company should they desire to show that the proposed tanks would not be detrimental or dangerous to the adjacent property owners.

PRINTING AT HOME

Petition to Governor to Include That Provision in Call to Legislature

In the hope of securing from the legislature an act which will keep the state, county and municipal printing at home, the various local branches of the Typographical Union have petitioned Governor Hunt to include that provision in his call for the legislature to assemble in special session. Publishers have also joined in petitioning the governor in the same connection.

The argument is that the state, counties and cities, in awarding contracts for printing, should deal with the printing and publishing houses of Arizona, whose highly-paid employees and their families are direct contributors to the welfare of their localities and of the state, instead of sending the printing to firms outside the state.

In this latter case, the money paid by the authorities leaves Arizona and is gone forever. In the former, it is retained in the state and circulates through the channels of trade.

Governor Hunt, in a reply, states that while he cannot safely predict the contents of his call, he will keep the petition in mind with a view to giving it further attention.

If the legislature passes such a law as the one above recommended for the benefit of the big shops, why not go further, for the benefit of the little country shops, and say that all public printing for county officials shall be done by an established office within the county.

A BIRTHDAY PARTY

Last Thursday proved to be of greater interest than usual to the pupils of Prof. Link's room. He had a birthday and decided to celebrate. From three o'clock to four, some exciting games were played, then Mr. Link treated the room to candy.

The boys, feeling they had not reciprocated sufficiently, proceeded to show their good will by capturing the teacher and "ding bumping" him once for every year of his supposed age.

Out of sympathy, perhaps, the girls then planned a surprise party, which "arrove" at his home in full force about 7 p. m., with nearly all the members of the seventh and eighth grades and some of last term's pupils also, their arms loaded with packages of candy and puts for appetizers. A most enjoyable evening followed.

OUR DUTY

There are a few old "bachelors" of Solomonville and Safford who will look blue and whose pocket-books will look flat when the "School Art Picture Show" is over. We will suggest that the oldest of these "bachelors" who have spent the most money for these tickets, should be presented with a picture.

CHAMBER MEETING

Was Very Lively and Showed Lots of Good Work Done

One of the most enthusiastic meetings of the Graham County Chamber of Commerce ever held was that one last Tuesday night. The compliments given to those business men who sit down and wait for others to make business for them were certainly hot ones and well deserved.

The committee appointed to draw resolutions on the San Carlos dam was not ready to report, and given more time.

Better roads were discussed freely and several telegrams read, showing that if we want to retain the Ocean-to-Ocean highway we must keep busy. It was recommended that the Chamber appoint two delegates to the good roads convention at Phoenix, and request the board of supervisors and the town council of each town to do the same.

As the dues of those members who have paid was not sufficient to do the necessary work of the Chamber an effort was made to increase the dues to \$10 per annum, but instead, each one contributed \$1.00 to pay up back accounts.

It was decided to ask the town council of Safford to re-open the case of the Standard Oil Company, where their permit to build in Safford has been revoked by the council. A resolution was also passed requesting the council to grant this company a permit to do business here.

HE IS IMPEACHED

Jurist Is Declared to Have Secured Option by Influence of Officials

Judge Robert W. Archbald, of the commerce court, was found guilty last Monday by the senate, sitting as a court of impeachment, of having misused his office and power as a judge for his personal gain.

Archbald was convicted on the first count of 13 which the House of Representatives brought against him. It charged that he had used his position as a judge to persuade the Erie Railroad Company to give to him and E. J. Williams, of Scranton, an option on a coal dump at a price probably \$30,000 less than its real value.

MAJORITY AGAINST JURIST

On this, the first charge, the senate voted 68 to 5 for conviction for "high crimes and misdemeanors." Although the verdict insured Judge Archbald's removal from the bench and the service of the United States Courts, the senate then proceeded to vote on the other 12 counts of the articles of impeachment which charged various other acts where Archbald had improperly used his influence as a judge.

The conviction upon the first came with an unexpected majority against Judge Archbald, but two-thirds being necessary for a conviction. As the roll call proceeded 68 senators rose in their places slowly and pronounced the word "guilty" in low tones.

JUDGE HEARS VERDICT

Judge Archbald waited in an anteroom to hear the verdict which removes him from public life.

With Judge Archbald as he received the vote of the senate were Mrs. Archbald, his son, Hugh Archbald, and Mrs. Hugh Archbald. Hugh Archbald checked off the senators as they voted on the first count, but did not return to the gallery during the rest of the voting. At the conclusion of the vote on the fifth article the gallery doors were unlocked and spectators surged out.

The judge was convicted on the first, third, fourth, fifth and thirteenth charges, and acquitted on the second, sixth, seventh, eighth, ninth, tenth, eleventh and twelfth.

When the last vote had been cast Senator O'Gorman offered a resolution that Archbald be removed from the bench and be forever ineligible to public office. Senator Root moved that the doors be closed for deliberation and the court went into executive session.

The senate in executive session decided to impose on Judge Archbald the full penalty of removal from office and disbarment from ever again holding a position of honor or profit for the United States.

HAS SURRENDERED

King Evereth Returned to Stand Trial—Says Brother Will Also Come

King Evereth, accused of compelling H. E. Smith to kill one of Marshall & Foster's cows and then holding him up for \$2,000 arrived in Solomonville Wednesday, walked in to the sheriff's office and gave himself up.

He stated that his brother, Denver Evereth would have come with him but they did not have money enough to buy two fares, and that if the sheriff would furnish the necessary transportation he would come. Sheriff Alger wired the transportation.

Evereth declares that he knows nothing of the Smith affair and would have returned here long ago if he had known he was wanted. He first learned it through the story published in last week's GUARDIAN. He was at Lordsburg when he learned it, and immediately came to Solomonville.

There will probably be no hearing until his brother arrives and the return of Deputy Sheriff McBride with Lee, accused jointly with the Evereth brothers.

TURNER ART EXHIBIT

On next Thursday and Friday afternoons, January 23d and 24th, from two to five o'clock, an exhibit of the Turner pictures will be held at the school house. The exhibit will be in the principal's room.

Tickets will be sold by the pupils at 25 cents for adults and 10 cents for children. We hope every adult in Safford will buy one or more of the tickets.

Over two hundred copies of the most famous world paintings, worth several thousand dollars, will be on exhibition.

All the money received for tickets will go for the purchase of pictures to be hung in the school rooms. The pictures sell for \$2.50 to \$30.00. Orders will be taken from those who desire any for their own homes.

The Turner Company makes no charge for the exhibit, save our paying the expressage, but all money taken in, must be spent for pictures.

We hope to sell tickets enough to enable us to buy one ten dollar, or two five dollar pictures for each of the six rooms.

Let every person assist the school to beautify its walls thus, and at the same time, spend an hour or two viewing a splendid collection of the world's masterpieces.
